Professor: Marcelo Cordeiro do Nascimento

Turma e curso: Ciências da computação (Bcc)

Nome completo: Giovanni Zanella da Maia

Teste:

Trimestre: segundo

### FOLHA DE PRODUÇÃO TEXTUAL

Hello, my name is Giovanni Zanella, I'm 19 years old and currently live with my mother and sister in Blumenau. In my leisure time, I like to watch movies and series, in addition to having a great interest in sports, volleyball being my favorite. As for my goals, I'm studying for a Bachelor's Degree in Computer Science, an area I chose after participating in the program called "entrada", which provided me direct contact with programming. It was through this experience that I discovered my passion for the area.

My experience with English started in elementary school in regular classes in the beginning, it was a subject that I liked, but for lack of an adequate methodology, I lost interest. I went back to studying the language during the programming course, because English was one of the curricular units, and to take advantage of my free time during the course, I played Duolingo, it was for a short period of time, but it helped me a lot to increase my vocabulary.

In a way, English ends up becoming very important in my life, for example: I like watching movies and series, but most of the films are in English, and although dubbing exists, I don't always like it, so not knowing English has a negative impact. I also really like listening to music to improve concentration, it helps me perform better at what I'm doing. My favorite songs at the moment are pop and the weekend.

Today, English plays a key role in professional life. As the area I decided to work on is related to technology and innovation, having a broad knowledge of English, I recognize access to a wealth of information and professional resources in English, such as books, articles, video lesson, manuals explaining a certain programming language, providing opportunities for continuous learning and professional development.

AVOID informal structures

AVOID contractions

DO NOT write beyond the limits

Pay attention to punctuation.
